

Cookie Statement

Vaults Network is owned and operated by DMNS Networks PTE LTD ("Vaults", "Vaults Network", "Company", "we", "us", and "our"). This Cookie Statement explains how we use cookies and similar technologies in the course of our business, including through our websites that link to this Cookie Statement, such as <https://vaults.network>, or any website or mobile applications owned, operated or controlled by us (collectively, "Websites" or "websites"). This Cookie Statement explains what technologies are employed and why we use them, as well as your rights to control our use of them. This Cookie Statement is and will be treated as part of our Terms of Use, and is automatically incorporated therein.

In some cases we may use cookies and other tracking technologies described in this Cookie Statement to collect Personal Information, or to collect information that becomes Personal Information if we combine it with other information. For more information about how we process your Personal Information, please consult our Privacy Policy.

1. What are cookies?

Cookies are small data files that are placed on your computer or mobile device when you visit a website. Cookies are widely used by online service providers in order to (for example) make their websites or services work, or to work more efficiently, as well as to provide reporting information.

Cookies set by the website owner or service provider (in this case, Vaults) are called "first party cookies". Cookies set by parties other than the website owner are called "third party cookies". Third party cookies enable third party features or functionality to be provided on or through the website or service you are using (such as advertising, interactive content and analytics). The third parties that set these third party cookies can recognize your computer both when it visits the website or service in question and also when it visits certain other websites or services.

2. Why do we use cookies?

We use first party and third party cookies along with some other tracking technologies for several reasons. Some cookies are required for technical reasons in order for our Websites and Services to operate, and we refer to these as "essential" or "strictly necessary" cookies. Other cookies enable us and the third parties we work with to track and target the interests of visitors to our Websites, and we refer to these as "performance" or "functionality" cookies. For example, we use cookies to tailor content and information that we may send or display to you and otherwise personalize your experience while interacting with our Websites and to otherwise improve the functionality of the Services we provide. Finally, third parties serve cookies through our Websites and Services for advertising, analytics, and other purposes.

3. Cookies served through our Websites

The specific types of first and third party cookies served through our Websites and the purposes they perform are described in further detail below:

Essential Website Cookies

These cookies are strictly necessary to provide you with services available through our websites and to use some of its features, such as access to secure members areas. These cookies are strictly necessary and you cannot refuse them without impacting how our websites function. You can block or delete them by changing your browser settings, as described under the heading "How can I control cookies?" in the Cookie Statement.

Analytics and Customization Cookies

These cookies collect information that is used either in aggregate form to help us understand how our websites are being used or how effective our marketing campaigns are, or to help us customize our websites and application for you in order to enhance your experience.

Advertising (Targeting) Cookies

These cookies are used to make advertising messages more relevant to you and your interests. They also perform functions like preventing the same ad from continuously reappearing, ensuring that ads are properly displayed, and in some cases selecting advertisements that are based on your interests. For further information, see the section of the Cookie Statement entitled "Targeted online advertising".

Other Tracking Technologies

We and our third party partners may use other, similar technologies from time to time, like web beacons, pixels (or "clear gifs") and other tracking technologies. These are tiny graphics files that contain a unique identifier that enable us to recognize when someone has visited our Websites or, in the case of web beacons, opened an email that we have sent them. This allows us, for example, to monitor the traffic patterns of users from one page within our Websites to another, to deliver or communicate with cookies, to understand whether you have come to our Websites from an online advertisement displayed on a third-party website, to serve targeted advertisements to you and others like you, to improve site performance, and to measure the success of marketing campaigns. While you may not have the ability to specifically reject or disable these tracking technologies, in many instances, these technologies are reliant on cookies to function properly; accordingly, in those instances, declining cookies will impair functioning of these technologies.

Cookie Statement

4. Targeted online advertising

We have engaged one or more third party service providers to track and analyse both individualized usage and volume statistical information from interactions with our Websites. We may partner with one or more third parties (such as advertisers and ad networks) to display advertising on our Websites and/or to manage and serve advertising on other sites.

These third parties use cookies, web beacons, pixel tags and similar tracking technologies to collect and use certain information about your online activities, either on our Websites and/or other sites or mobile applications, to infer your interests and deliver you targeted advertisements that are more tailored to you based on your browsing activities and inferred interests ("Interest Based Advertising"). For more information about this practice, you can visit <http://www.aboutads.info/choices/>.

Our third party service providers may also use cookies or web beacons to collect information about your visits to our Websites and/or other sites to measure and track the effectiveness of advertisements and our online marketing activities (for example, by collecting data on how many times you click on one of our ads). The information collected by these third parties does not include personal information that enables you to be specifically identified (e.g. by reference to your name or email address).

5. How can I control cookies?

You have the right to decide whether to accept or reject cookies.

Browser Controls:

You can set or amend your web browser controls to accept or refuse cookies. If you choose to reject cookies, you may still use our Websites though your access to some functionality and areas of our Websites may be restricted. As the means by which you can refuse cookies through your web browser controls vary from browser-to-browser, you should visit your browser's help facility or online guides for more information.

Disabling Most Interest Based Advertising:

Most advertising networks offer you a way to opt out of Interest Based Advertising. If you would like to find out more information, please visit <http://www.aboutads.info/choices/> or <http://www.youronlinechoices.com>.

Do Not Track:

Some Internet browsers - like Internet Explorer, Firefox, and Safari - include the ability to transmit "Do Not Track" or "DNT" signals. Since uniform standards for "DNT" signals have not been adopted, our Websites do not currently process or respond to "DNT" signals. Vaults takes privacy and meaningful choice seriously and will make efforts to continue to monitor developments around "DNT" browser technology and the implementation of a standard.

6. Cookie statement updates?

We may update this Cookie Statement from time to time in order to reflect changes to the cookies we use or for other operational, legal or regulatory reasons. Please visit this Cookie Statement regularly to stay informed about our use of cookies and related technologies.

7. Further information?

If you have any questions about our use of cookies or other technologies, please email us at privacy@vaults.network
